

# Your first pumpkin night

A simple plan for a family carving or painting session.

---

## 1. Choose a method

Children can choose colors and transfer a design. Adults handle all cutting.

## 2. Match the size

Choose the 4.5-inch or 6-inch template box. Print at actual size (100%).

## 3. Check your print

Measure the 1-inch bar. Tape the page to your pumpkin and check its fit.

## 4. Transfer gently

Trim paper around the template; tape it down and mark the design.

## 5. Preserve the bridges

Cut black shapes; leave the white connections. Widen fragile sections.

## 6. Light and display

Use a battery light. Keep painted or surface-etched pumpkins uncut.

**Included: eight simple faces, each in two template sizes.**

Print only the pages you want. Difficulty labels describe artwork detail.

These original patterns have not been physically test-carved.

# Classic grin

4.5-inch template box | Adult-led cutout carving | Print at 100% / actual size

---

Cut the black shapes. Keep white bridges attached. Do not cut the sizing box.

The box size includes artwork margins. Check the fit before transferring.

Original design; not physically test-carved. Widen thin bridges if needed.

 1-inch print check
